Corner Cuts

- To show the eight layers of sturdy engineered wood

Beautiful Sawn Hardwood

- Millbrook Timbers engineered wood floors are made with classic finishing techniques.
Beautiful natural wood textures are enhanced with light wire brushing, refined edge bevels, and multiple rich stains.
- 4 mm European oak face is thick enough to be refinished multiple times (e.g. to change stain color)
- Durable aluminum oxide finish **resists scratches** and stays beautiful for a lifetime.
